	Common Carp	up to 25 25+	PCB PCB	1 meal / week (8 ounces / week) 1 meal / month (8 ounces / month)
	Largemouth Bass	up to 18		unrestricted
	Spotted Sucker	up to 14		unrestricted
	White Crappie	up to 9		unrestricted
<b>West Fork White River</b>				

General Population

\*Sensitive populations include: pregnant or nursing women, women that will become pregnant, and children under 6 years of age. These consumers should use caution when eating some types of sportfish.

\*\*The maximum amount for adults to eat is determined by fishing location, species and fish length. For instance, if you eat the maximum amount of one species during a week, you should not eat any other fish which has a consumption limitation until the following week. Example - if you eat the limit (4 ounces) of a 20 inch long Carp from the Easy Catch River, then you should not eat any other sportfish from the list until the following week.

# Angling Indiana - FISH CONSUMPTION ADVISORY

Location	Species	Fish Size	Contaminant	Group
